JL-Reminder on scientific tests and extra copies of 38861 serials HW 2/27/77

You were going togive me the serial of the fat report on scientific tests you forget to get copied when I gave you those originals for copying. Now it is less important that I have the extra copy - which I'd like- than that I have the identification.

In the course of file shifting it became apparent that when we were making duplicate copies I did not get some. I think 15, 16,17. If you do not have two of these do not make other copies now.

Section 25, serial 52 refers to pix of the Mustang taken when it was found in atlanta. When you speak to Hardingh please ask for them if there are not more than 50 or so.

Some of ~~this~~ these have no section number. If he has a list of the serials in each section that would enable me to make positive identifications. There were no work sheets with those or the work sheets also had no section number, probably both.
